

Anonymous Operations Scheduled for November 5, 2013 – Million Mask March and OpForTheLulz

October 30, 2013

(U//FOUO) New Jersey Regional Operations Intelligence Center (NJ ROIC) Intelligence & Analysis Threat Unit ~ IAU201310-2253

Million Mask March

(U//FOUO) The Million Mask March on November 5, 2013, also referred to as OpNov5th, is an international Anonymous-organized event in honor of Guy Fawkes Day in the United Kingdom. Anonymous advertises the march as a peaceful demonstration, which is protected by the Constitution, drawing attention to causes ranging from basic human and civil rights to grievances against the current "oppressive and tyrannical government." Anonymous actors are organizing demonstrations in over 150 US cities.

(U//FOUO) The NJ ROIC recognizes that Americans have constitutionally protected rights to assemble, speak, and petition the government. The NJ ROIC safeguards these First Amendment rights, noting that violent extremists could disrupt legal activities, interfering with otherwise peaceful events.

(U//FOUO) While this is supposed to be a peaceful protest, Anonymous indicates they are prepared for the "same type of unprovoked violence from law enforcement that happened during the Occupy rallies." No threats of violence have been made; however, Anonymous is preparing their own "medical teams" to treat demonstrators who may be injured in the event of law enforcement intervention. Additionally, law enforcement should be aware of participants using mobile phones to record interactions with law enforcement and other authorities. Some smartphone applications can automatically broadcast the recordings online or make the phone appear to be off by displaying a black screen while recording.

(U//FOUO) On October 28, 2013, Anonymous released a YouTube video (www.youtube.com/watch?v=3HRd16GCaJc) with a message to the Washington, D.C., police stating that if there are unlawful arrests of protestors, or if police interfere with protestors who are recording the event, Anonymous will target their "servers, phone lines, emails, and whatever else they can find." While this message is specific to the Washington, D.C. march, law enforcement agencies should consider it applicable to other Million Mask March locations.

New Jersey Nexus

(U//LES) Information received regarding these planned actions indicates that in New Jersey, Trenton (Mercer Co.) and Paterson (Passaic Co.) have potential demonstrations scheduled. The NJ ROIC has no further information on these potential actions at this time. For further information, please see the links below:

(U) INFORMATION NOTICE: This product contains unclassified information that is considered Law Enforcement Sensitive (LES). Recipients should not release any portion of this product to the media, the public, or other personnel who do not have a valid need-to-know.

OpForTheLulz

(U//FOUO) In addition to the Million Mask March, members of Anonymous posted OpForTheLulz, targeted towards individuals who conduct cyber attacks for personal entertainment, or "lulz." The video advocates attacking "whoever you want on November 5th with whatever means necessary to take down your target." An OpVendetta demonstration is also planned for November 5th around London, England, and includes some generic threats of cyber attacks. While both of these operations may include cyber attacks, they are not organized efforts and Anonymous members or affiliates have posted no US targets or tactics. If cyber attacks are conducted on November 5th, they will likely be disorganized and on a small scale.

Recommendations:

(U//FOUO) The NJ ROIC recommends the following actions:

- Remind users not to visit un-trusted sites or follow links provided by unknown or un-trusted sources
- Remind users to be cautious when clicking on links in emails coming from trusted sources
- Ensure anti-virus is installed and definitions are up to date
- Ensure patches and updates are installed for operating systems and applications
- Run regular vulnerability scans against the network and web applications
- Ensure law enforcement authorities are aware of the planned demonstration site and the potential for antagonistic behavior and cover recording

Suspicious Activity Reporting

(U//FOUO) Please report suspicious activity, including cyber incidents, immediately per existing protocols. Activity can also be reported 24 hours a day to the NJ ROIC Counter Terrorism Watch at (866) 4-SAFE-NJ (866-472-3365) or tips@njhomelandsecurity.gov.

Contact Information

(U//FOUO) Any agency with further information regarding this issue should contact the NJ ROIC at (609) 963-6900, option 1, or roic@gw.njsp.org. Questions about this product can be directed to the NJ ROIC at (609) 963-6900, ext. 6243, or njroicanalysis@gw.njsp.org.

Anonymous: New Jersey Police Likely an Enduring Target

April 13, 2015

The international hacktivist group Anonymous probably will continue to release personal information online—a tactic known as “doxing”—of New Jersey law enforcement officers it perceives use excessive force, as it did last week against Vineland police personnel. Anonymous in recent months also targeted police and government representatives in Cleveland and Ferguson following alleged police brutality.

- On 6 April, Anonymous posted a YouTube video threatening retaliation against the Vineland Police Department for the 31 March arrest and subsequent death of Phillip White. In the video, Anonymous demanded Vineland authorities release the names of the officers involved in the incident and place them on administrative leave within 24 hours. When the group’s demands were not met, it initiated doxing tactics and posted the home addresses, phone numbers, and emails of the mayor of Vineland and the officers.
- This year, Anonymous launched a separate but related campaign known as “OpCodeBlue,” which aims to gather information on law enforcement agencies it deems corrupt to support future doxing attacks.
- In December, the NJ Cybersecurity and Communications Integration Cell (NJCCIC) at the NJ Regional Operations Intelligence Center (ROIC) released a report recommending that all law enforcement officers and public safety officials in New Jersey take proactive steps to limit their online presence and to remove personally identifiable information from social media sites.

Contact Information

The NJCCIC and OHSP CTWatch at the ROIC are establishing persistent social media monitoring of identified hacktivist actors and will proactively notify any future targets of potential hacktivist activities. Any agency with comments or questions about this document should contact the NJCCIC at (609) 963-6900 ext. 6249 or at cyber@gw.njsp.org.
